

# CLEANSPACE PRO

The **Advanced** PAPR for ultimate protection and comfort

WITH  
**AirSensit®**  
TECHNOLOGY

**CleanSpace®**  
RESPIRATORS

# Technology that keeps you protected, connected and confident

CleanSpace is the global leader in respiratory protection solutions, offering intelligent PAPR systems and programs that prioritize protection.

Our lightweight systems, featuring patented AirSensit® technology, provide superior protection from lung hazards, enabling wearers to work at their best. With real-time information, users have visibility and control over their lung safety.

- Peak airflow: 230 L/min
- Enhanced acoustics and communication
- AirSensit® technology: monitors mask pressure 100 Hz

- Power Unit (< 1lb) (lightest PAPR on market)
- Compact/few parts: No adaptors, tubes or connectors
- Compatible with half mask
- Particulate filters available

Work-related lung disease is a major contributor to Silicosis, Chronic Obstructive Pulmonary Disease (COPD) and lung cancer, which is why we prioritize respiratory protection.

- Run time: 12 – 14 hours
- Quick charge: under 2 hours
- Battery: lithium ion – safe and light
- Docking stations & car chargers available

CleanSpace customers can access CleanSpace Plus: learning programs, extended warranty, equipment maintenance, and fit testing\*. Our goal is to provide our customers with the best possible experience and support.

- Buttons designed for gloved hands
- Modern, intuitive operating system
- Durable and robust
- Sustainable: reusable, low carbon and plastic footprint

\*Additional charges apply, Management Report Program is only available to CleanSpace ULTRA customers

## CleanSpace PRO Applications:

- Mining
- Construction & Stone (Silica)
- Chemical
- Pharmaceutical
- Waste & Water
- Maintenance & Cleaning
- Agriculture & Food

**No waist-mounted belts or hoses.**

Use work tools, vehicles and move around heavy equipment without restriction.

# Technology that tracks respiratory protection

In the workplace with airborne hazards, employers must implement and manage an effective Respiratory Protection Program, consisting of four components to fulfill their duty of care:

**MONITORING/REPORTING:**

Surveillance in place to ensure compliance and shape behaviors/processes as required

**CORRECT USE:**

Staff are capable and confident on the use and care for their respirators

**RELIABLE PROTECTION:**

Respirators that consistently meet or exceed site requirements

**SUITABLE WORKFLOW:**

Respirators are working, available and ready to use when needed

## Features

LIGHT: (< 1LB)

PEAK AIRFLOW  
230L/min

REAL-TIME  
PROTECTION SCORE

INTELLIGENT MANAGEMENT  
FILTER TECHNOLOGY (IMFT)

# CleanSpace Solutions

## CLEANSPACE PRO

- Advanced powered air purifying respirator (PAPR)
- Compact and lightweight: (< 1lb)
- Peak airflow 230 L/min; breath responsive
- Battery run time 12 - 14 hours; fast recharge
- Bluetooth® connectivity:
  - Real-time Protection Score
  - Intelligent Management Filter Technology (IMFT)
  - Missing Filter Alarm

## CLEANSPACE SMART APP

- FOR USERS**
- Gives users control and visibility to their lung protection
  - Real-time respirator information: Protection score, battery charge (%) and filter use (min and %)
  - User Tools: correct set up and use; and report feedback at point of use
  - Free to download from Apple and Android stores

## \*CLEANSPACE PLUS PROGRAM

- Learning assets and tailored support
- Services: Equipment maintenance, part replacement and fit testing
- Additional charges apply

\*CleanSpace PLUS - Management Report Program is only available to CleanSpace ULTRA customers

# DOWNLOAD THE CLEANSPACE SMART APP FOR USERS

## STEP 1: SELECT MODEL

CleanSpace PRO  
CST1001

Power unit\*  
includes neck  
supports, charger  
& carry bag  
\*excludes mask and filter

## STEP 2: SELECT MASK

Half Mask  
(includes head harness)  
CST1034 - Small  
CST1035 - Medium  
CST1036 - Large

## STEP 3: SELECT FILTER

Particulate Filter (3pk)  
High Efficiency (HE)

Face mask and filters sold separately Features AirSensit™ technology and connectivity.

# WHAT'S INCLUDED IN THE BOX?

## CleanSpace PRO Power unit

(motor/fan/battery pack)

CONNECTIVITY

CleanSpace PRO is the latest addition to CleanSpace Technology's advanced range of respiratory protection products designed for industrial use. CleanSpace PRO is a powered air purifying respirator (PAPR) that offers superior protection

against dust and airborne hazards. With no hoses or heavy waist-mounted battery packs making it the most comfortable and easiest PAPR in the market. Features AirSensit™ technology and connectivity.

## Battery Charger

PLUS: A Carry Bag & Quick Start User Guide

## 2x Neck Support

(small and medium)

## FEATURES

- Fully approved: NIOSH, CE, UKCA and AS/NZS1716
- CleanSpace Smart App is free to download from Apple and Android Stores

## PRODUCT COMPATIBILITIES

- Face Pieces:** Half masks (sml, med & lge)
- Particulate Filters:** High Efficiency (HE) - High capacity
- Accessories:** Prefilter, cleaning storage plug, docking station (max 8 units)
- Connectivity:** CleanSpace Smart mobile app
